Pesticide Statement

Product: Organic Coconut Milk Powder

The Organic Coconut Milk Powder sold by Cambridge Commodities, Inc. is certified organic by Organic Certifiers in accordance with the USDA National Organic Program standards. This product complies with all regulatory requirements and certification standards. Specifically, with regard to chemical residues, this product can be guaranteed to contain 5% or less of EPA minimum tolerance per chemical and per commodity (as required in section 7 CFR 205.671) when analyzed at single strength or on an "as is" basis.

Thank you,

Bailey Pavusko

Bailey Pavusko – QA Specialist

Solvent Statement

Product: Organic Coconut Milk Powder

There are no solvents used in the production of the Organic Coconut Milk Powder sold by Cambridge Commodities, Inc.

Thank you,

Bailey Pavusko

Bailey Pavusko – QA Specialist

WADA Statement

Product: Organic Coconut Milk Powder

The organic coconut milk powder purchased and distributed by Cambridge Commodities, Inc. does not contain nor come in contact with substances listed on the WADA prohibited substance list.

Thank you,

Bailey Pavusko – QA Specialist

Aflatoxin Statement

Product: Organic Coconut Milk Powder

The Organic Coconut Milk Powder sold by Cambridge Commodities, Inc. is, to the best of our knowledge, free from Aflatoxins.

Thank you,

Bailey Pavusko – QA Specialist

Preservative Statement

Product: Organic Coconut Milk Powder

Bailey Pavusko

Bailey Pavusko – QA Specialist

There are no preservatives used in the production of the organic coconut milk powder sold by Cambridge Commodities, Inc.

Thank you,

Issue Date 1/6/2020

GMO Statement

Product: Organic Coconut Milk Powder

Cambridge Commodities, Inc. Organic Coconut Milk Powder does not contain Genetically Modified Organisms (GMO).

Thank you,

Bailey Pavusko

Bailey Pavusko – QA Specialist

Irradiation Statement

Product: Organic Coconut Milk Powder

To the best of our knowledge, the Organic Coconut Milk Powder sold by Cambridge Commodities, Inc. has not been irradiated.

Thank you,

Bailey Pavusko

Bailey Pavusko – QA Specialist

Melamine Statement

Product: Organic Coconut Milk Powder

The organic coconut milk powder sold by Cambridge Commodities, Inc. is, to the best of our knowledge, free from melamine.

Thank you,

Bailey Pavusko

FoodChain ID Standard Ingredient Form

This form facilitates the verification process for enrolled participants. The Non-GMO Project (NGP) Standard requires FoodChain ID to assess all potential GMO (*) risk ingredients, including highly processed ingredients and sub-ingredients. Detailed information from suppliers is required and highly appreciated. Thank you for your cooperation.

<u>Instructions</u>: This form should be used with the latest version of <u>Adobe Reader</u>. The manufacturer of this ingredient should complete, sign and return this form to enrolled participant. In turn, the participant should upload the completed form to their record.

Ing	redient name:
Ing	redient Manufacturer name:
1.	Is this ingredient 95+% Certified Organic? □Yes □No
2.	Has this ingredient been verified as a product through the Non-GMO Project Product Verification
	Program?
	□Yes □No
	ou have answered YES to question 2, please answer 2.1, 2.2, and 2.3. Then skip to the end of this
do	cument and fill out the signature section. If you have answered NO, please proceed to question 3.
2.1	The NGP verified product name should be listed either on the NGP website or on the addendum of the NGP Certificate. If the NGP verified product is not listed on the NGP website, please provide the NGP Certificate with addendum.
2.2	Please provide name of customer to whom you are selling your NGP verified product below:
2.3	Is any third party receiving and/or handling the NGP verified product in permeable* form?
	□Yes □No
	*Permeable form: handling of NGP verified product in unsealed form.
3.	Ingredient properties (check either box A or B, displayed below)
	\square A. The ingredient consists of a single input ("mono"). Please identify the single raw material
	source (e.g. flax seed): Select this option only if this is a 100% single ingredient and
	does not contain (or is used to process) any additives (i.e. preservatives, carriers, anti-caking agents etc.) or processing aids (enzymes, solvents, extractants, microorganisms, etc.) in its manufacturing process.
	If you checked box A, please skip question 4.
	\square B. The ingredient contains multiple inputs ("compound").
	Select this option if the ingredient contains more than one input.
4.	In the table displayed below, list all of ingredient's raw materials, additives, incidental additives, processing aids ² and fermentation media/substrates and any other inputs that are used in the

manufacturing process of the ingredient.

□Yes □No

Examples include but are not limited to anti-caking agents in salts and standardizing agents in powders, solvents in extracts, all processing aids, including enzymes, microorganisms and extractants, as well as additives like preservatives, carriers, pH adjusters and antioxidants in oils.

I A I I I E	Identify all inputs used in manufacturing of sub-ingredient(s) or indicate that sub-ingredient is 100% raw material	Is this input a processing aid*?
